If YGIASTIKA.—A SPEEDY AND CERTAIN CURE FOR In neuralgia, its doloreur, toothache, nerveus headache, and rheumatism in the head, and a sure preventive of convulsions, or any other complaints attendant upon early childhood during the period of teething, has been discovered and is now being successfully administered in the form of a medicated necklace, to be worn next the skin by the patient. An eminent German physician discovered the virtues of the valuable medicines of which the beads of the necklace are made, and prescribed the mode of application. The notice of the public is not, therefore, called to a quack medicine, but to a medicament recommended by one of the most eminent of the faculty, as peculiarly powerful in seving through the porces of the skin directly upon the diseased or excited nerves, affording, generally, instant, and always permanent relief, and effecting a permanent cure. Patients who, at twenty-four hours trial of the medicated necklace, according to prescription, find no relief, may, at the close of that period, by immediately returning the same, receive back their money.

A CURE BY HOLLOWAY'S OINTMENT AND PHAS OF Jones, of Portugal street, Lincola's inn-fields, caught a severe cold, which settled in her knee, and formed a tumor on the joint, which, in the course of time, became so stiff that she could not bend it, and coutinued so for twelve months. Ehe tried remedy after remedy, but to no purpose, and she became fearfully alarmed. At last she rubbed Holloway's cintment into it unsparingly every night and morning, and took the pills, which completely dispersed the tumor, and the joint has become again as pliant as ever, and free from pain. THE MARRIED WOMAN'S PRIVATE MEDICAL COMpanion—By Dr. A. M. Mauriceau, Professor of Discases of Women. Twentieth edition, 16mo, pp. 253. Price,

prospect to me which I little conceived was possible. Bud

head, in all human probability my wife would have been
in her grave, and my children motheriess.

It is, of course, impracticable to convey more fully the
serious subjects treated of, as they are of a nature strictby int
